

2nd April 2020

Dear Parents,

I hope you are all well and keeping safe. In order to assist home learning, your child has now been registered on the MyMaths website. Staff are able to set your child maths work to complete online and to see how they progress. The following information will help you to support your child to access and use MyMaths.

How to access MyMaths

Go to www.mymaths.co.uk and login at the top of the page with the school's username and password. On the next page, your child should enter their personal username and password in the My Portal box. MyMaths will then remember who they are and automatically log them in to the tasks.

For those of you who confirmed your email addresses with us a few weeks ago, staff will use these to email out your child's username and password. If you do not receive these, please email the year group emails you were given last week and staff will be able to send them to you.

If your child has been set a task by their teacher, it will appear in the Homework area. There is a link to the lesson if they want to revise first, and a link to the homework itself. When your child completed both pages of an Online Homework the scores will be saved to the database. Their teacher will be able to see how well they did and leave feedback.

If a green star appears next to a topic, they have good skills in this area. If an amber star appears they still have some difficulties. If a red star appears, they need to go back and relearn the topic. Get them to try the lesson again or ask their teacher for extra help.

Work will begin to be shared on MyMaths on Monday 20th April.

If you have any issues, please contact school using the email addresses.

Yours faithfully

Mr Hinkley (Headteacher)
