

Spelling Shed	TTRockstars	Oxford Reading Buddy
Please have a look at this week's spellings. Bonus points will be given to anyone who can reach a score of over 10,000,000.	This week, we have a 6E vs 6L battle – who will be our champions?	The Show Must Go On! Have you ever been to the theatre and wondered how many people it takes to put together a show? Take a trip backstage with a trained actor and find out all the tricks of the trade – from make-up to sound effects to stage combat.

Each week, we will focus our learning on a different Disney film.

This week's focus will be:

ALADDIN

We would love to see the work you produce – don't forget to email it in to wt.y6homelearning@perryhallmat.co.uk

Please contact us if you have any questions about the tasks we have provided.

Creative Writing	Science	Creative Curriculum
<p>'Aladdin and the cave of wonders' https://www.youtube.com/watch?v=jRAKA8yMcKY</p> <p>1 – Senses. Think about interesting phrases to describe what Aladdin could see/hear/smell/taste/touch. 2 – Figurative language https://www.bbc.co.uk/bitesize/topics/zfkk7ty This website is a good recap as to the different types of figurative language that we have used in Year 6. Can you think of different examples you could include in your writing? 3 – Tension. This is a great scene to create some tension (you all worked fantastically at this – remember your Wolves in the Walls writing?) Try and create some tension into the build-up before Aladdin picks up the lamp. 4 and 5 – Now to put it all together! We would love to see some first-person writing, as Aladdin, based on this scene. The best ones will go onto our school website – give it a bash!</p>	<p>Space</p> <p>Aladdin spends most of his time staring into the night sky or towards the palace. He doesn't always see the same stars though as they seem to move. Do the stars move? Research planets and how they move within the solar system.</p> <p>How could you present your learning?</p> <ul style="list-style-type: none"> • Double-page spread (we know you love these!) • Host your own Science show all about stars and the solar system. • Create a model of the night sky, explaining why it appears that stars move. 	<p>The Disney version of 'Aladdin' is set in the fictional Middle Eastern city of Agrabah</p> <p>Which climate zones can be found in the Middle East? What languages are spoken in the Middle East? Where did the tale originally come from? How is this area different to the Middle East?</p> <p>Extra challenge - Name all the different climate zones in the world and label a world map on where they can be found.</p>
MyMaths	Reading	Mindfulness
<p>You have daily MyMaths lessons to access. Each activity has a short lesson before it to model how to use each skill.</p> <p>There are also some great games to have a go at.</p>	<p>We would love to hear about any new books that you are reading. If you think someone else from our year group might also enjoy it, try writing a brief review of the book, explaining the basic plot (without spoiling anything!) and why you would recommend it. We can then share it with other children needing some inspiration for a new book to get into.</p>	<p>Make sure you stay positive whilst away from friends, extended family and without your daily routine. Keep a positive thoughts journal to help you. We have given you titles for the first four days to help.</p> <p>Day 1 - Things I am thankful for Day 2 - What strategies can I use to keep happy? Day 3 – What am I good at? Day 4 – What do I plan on doing later in the year?</p>
PE	Computing	Art & D&T
<p>Joe Wicks Kids Workouts: https://www.youtube.com/watch?v=d3LPrhIOv-w Move Like The Avengers https://watch.lesmillsondemand.com/born-to-move/season:1/videos/born-to-move-marvel-let-s-go</p> <ul style="list-style-type: none"> • Keepy Uppy challenge – how many can you complete without dropping the ball? • Bin/bucket challenge – how far away can you accurately throw a ball into a bin/bucket? Can you even do it with your back to the bin/bucket? 	<p>Create a travel brochure for Agrabah! This could be using one of the following programs: Microsoft Word Microsoft Powerpoint Microsoft Publisher</p> <p>Use whatever you feel most confident with. Again, work could be shared on our school website once completed.</p>	<p>Choose one of these tasks or, if you're feeling particularly crafty, have a go at a few:</p> <ul style="list-style-type: none"> • Draw/paint the palace during sunset – think carefully about your choice of colour. • Design your own flying carpet - what materials will you use? How will it be able to fly? Who are your target audience? You could also create an advertisement for it. • Create your own 3D structure of the palace.
