

## Nursery Homework

# People Who Help Us

This week we are finding out about the NHS—doctors, nurses and paramedics.

Create a rainbow and put it in your window to show support to the NHS and how they are helping people with corona virus.

Role play being a doctor or nurse with your family. Check their temperature, bandage their head or arm, give them some medicine and make sure they have some rest.

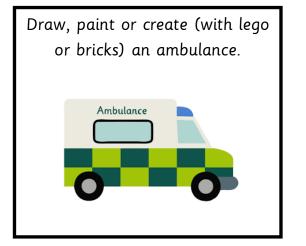

Sing the song, 'Five Little Monkeys'. Have a go at writing the numbers up to 5. Find 1 item for the number 1, 2 items for the number 2 and so on. Can you jump once, twice, etc?

Create your own first aid kit. What should go in there so you can help people?

Watch some 'Get Well Soon' with Doctor Ranj and his friends.

### **Nursery Homework**

## Maths, Phonics and Literacy

These are the end of year expectations for Nursery for Maths, Literacy and Phonics.

### <u>Maths</u>

•Use number language, e.g. 'one', 'two', 'three', 'lots', 'fewer', 'hundreds', 'how many?' and 'count' in a variety of situations. •Support children's developing understanding of abstraction by counting things that are not objects, such as hops, jumps, clicks or claps.

•Model counting of objects in a random layout, showing the result is always the same as long as each object is only counted once.

•Model and encourage use of mathematical language e.g. asking questions such as 'How many saucepans will fit on the shelf?'

•Help children to understand that one thing can be shared by number of pieces, e.g. a pizza.

•As you read number stories or rhymes, ask e.g. 'When one more frog jumps in, how many will there be in the pool altogether?'

•Use pictures and objects to illustrate counting songs, rhymes and number stories.

•Encourage children to use mark-making to support their thinking about numbers and simple problems.

•Talk with children about the strategies they are using, e.g. to work out a solution to a simple problem by using fingers or counting aloud.

•Demonstrate the language for shape, position and measures in discussions, e.g. 'sphere', 'shape', 'box', 'in', 'on', 'inside', 'under', long, longer', 'longest', 'short', shorter', 'shortest', 'heavy', 'light', 'full' and 'empty'.

•Encourage children to talk about the shapes they see and use and how they are arranged and used in constructions.

### <u>Literacy</u>

• Notice and encourage the marks children make and the meanings that they give to them, such as when a child covers a whole piece of paper and says, "I'm writing".

•Support children in recognising and writing their own names.

•Make books with children of activities they have been doing, using photographs of them as illustrations.

•Focus on meaningful print such as a child's name, words on a cereal packet or a book title, in order to discuss similarities and differences between symbols.

• Help children to understand what a word is by using names and labels and by pointing out words in the environment and in books.

•Discuss with children the characters in books being read.

• Encourage them to predict outcomes, to think of alternative endings and to compare plots and the feelings of characters with their own experiences.

#### <u>Phonics</u>

• Play a listening and drawing game. Take it in turns to sound out a words and the other person has to draw the item! Try the words sun, ten, pan, box.

Play a listening game about a visit to a farm. 'I went to the farm and I saw..' - instead of saying the animal name, split the word up into its 3 letter sounds. The other person has to identify the animal by blending the sounds together. For example: 'I went to the farm and I saw a 'c-a-t.' - 'It's a cat!'. Try cat, dog, pig, cow, hen.
Go on a letter sound hunt! Look around at home or outside and find things beginning with the same letter sound. 'Can you find three things beginning with the letter t?' What other letters can you choose?

•Make some silly soup! Find three things that begin with the same letter to put in a bowl and stir into soup. • Sing some nursery rhymes together!

• Say some words and work out which ones rhyme with each other and which one doesn't. Remember to listen carefully to the sounds at the end of the word: tree, bee, pin, three
