

LONGLEAT SAFARI PARK.

WHERE DID I VISIT?

Longleat Safari Park (Located near Bath, Wiltshire, in England).

DESCRIBING MY TOUR.

- . Adventurous,
- . Informative,
- . Interesting,
- . An enjoyable experience,

LIST 3 THINGS THAT I SAW ON TOUR.

I saw my favourite animal in the world and in the Safari Park, which is the Cheetah. I also saw 2 beautiful and stunning fountains outside behind the entrance of the iron

gates. And at last the eye-catching species of the pack of wolves.

LIST 3 INTERESTING FACTS ON TOUR.

Did you know that Cheetahs (the fastest land animal in the world) can run up to a speed of 70mph! That is approximately as fast as a car on a main road. If you are still wondering and are confused about whether Zebras are white with black stripes or black with white stripes, I am indeed pleased to announce that Zebras are actually black with white stripes and they can also run up to a top speed of 40mph, which could outpace a hungry lion! Ostriches' eyes are bigger than their brains and they also hold the record for laying the largest eggs in the world measuring in at about 15cm, they also have a whopping 3 stomachs!

LIST 3 THINGS THAT I LEARNT ON TOUR.

- . I didn't know that vultures' wings have a total length of 2m.
- . Also I was very surprised when I heard that flamingos feathers are pink and beautifully coloured because they eat crustaceans such as shrimp.
- . Lastly, I was extremely impressed when I saw that Giraffes can spend an incredible total of 16-20 hours a day munching on twigs, leaves and foliage all from trees.

WHAT WAS MY FAVOURITE THING ON TOUR?

My favourite thing on tour was when I saw a troop of monkeys enjoying themselves and were having fun bouncing around on top of the visitors' cars.
