

Can you make a birthday cake or some cupcakes for Woodthorne? Follow a recipe and measure the ingredients carefully using scales. Decorate the cake/s so we know it is for Woodthorne.

60 is a big number—can you count all the way from 0-60? Now, can you write a great big line of all the numbers from 0-60. Next, mark on where your age is and do the same for other members of your family's ages, creating a time line.

Finally, make a Woodthorne 60th birthday party hat—get as creative as you like then send us a picture of you wearing it to the home learning address.

Have fun!
