

Woodthorne Primary School Core values

CARE

10.09.21

Introducing Woodthorne's brand new core values from this day forwards! This truly has been a labour of love. Many members of our school community have been heavily involved in helping to shape them over the last 12 months including governors, children, staff and parents. We are absolutely thrilled with the design and can only hope that you are too! We truly feel that it celebrates diversity in every way and the individuals are shining examples of each of the 4 core values.

The 4 values are as follows: courage, ambition, respect and excellence. These 4 values will underpin EVERYTHING we do at Woodthorne in order that our children leave us as responsible, tolerant and aspirational citizens- the very best that they can be. The values will be the basis for assemblies, integral to PSHE lessons, underpin our behaviour policy and will be carefully weaved throughout the curriculum as the 'thread' that ties everything together.

You may also have noticed the hidden acronym: CARE. This is because above all else, we care about every member of the Woodthorne community in every way. We care about our families, care about our wider community, care about striving every day to "inspire a love of learning to last a lifetime" for each and every member of our Woodthorne family.

Please keep an eye out on our School website and Twitter pages where we will be posting photographs of the beautiful new murals in each building where these core values are now displayed. Parents Evening won't be too far away, when you can come on in and see them for yourselves! We welcome your feedback and truly hope that you love them as much as we do!
