

MISS MAHAY

ART LEAD

Art is a passion of mine which allows me to have some downtime and time to relax. When time allows, I enjoy sketching and painting, even though my daughter thinks I'm not very good at it

I believe that Art provides a mode of communication that is universal. I have a love of teaching art as it brings a buzz of creativity and energy into the classroom. Art provides all children with access to expressing themselves and become creative thinkers at an individual level. It gives children the opportunity to develop a diverse range of skills which can be transferred into numerous curriculum areas.

We have a new exciting new Art curriculum at Woodthorne that will develop our children into artists in their own right! I look forward to seeing the wonderful work.
