

MRS WONG

COMPUTING LEAD

Hi there, I am Mrs Wong and I love computers! I am Computing lead at Woodthorne and have been teaching here for 5 years now.

I started my working life as a web designer for the NHS where I helped to improve the Heart of Birmingham website. I love computer games, even though I'm not very good at them – except Just Dance, I am undefeated there! Gadgets and gismos are my passion, I love a new tablet or phone! I am passionate about bringing technology into the classroom because, did you know, the children we are teaching could be hired into technology jobs that haven't even been invented yet?

I believe in computing literacy and teaching through technology, where appropriate. I am passionate about combining technology learning with outdoor learning, reading and science.
