

MRS WATKINS

MFL LEAD

Languages are my passion: I have A levels in French, Spanish and Italian and studied Spanish and Linguistics at University before completing my PGCE. Through my studies I have lived and taught abroad on two occasions and worked English from 1 year olds right through to adult learners and travelled some Spanish speaking countries of Central America.

Leading foreign languages is a complete dream for me. I love how practical and fun it can be and how develop children's communication and interaction with each other whilst also supporting their understanding of English grammar and syntax.

Being bilingual is probably my favourite thing about myself- it means I've the opportunity to speak with millions more people than if I didn't and has given me some amazing opportunities through my life.
