

## Year 4- Progression in Language Structures

<p><b>Retell</b>            In the beginning...            Subsequently...            As time passed...            Meanwhile...            On the other side of the...,            Back at home, ...            I remember that...            With hindsight... Reflecting upon...            In the event that...            Lastly... In the end...            To conclude / In conclusion / To sum up...</p> 	<p><b>Sequence</b>            Firstly...            Because...,            However...            therefore...            After a while...            Meanwhile/ in addition...            Next... Then...            Finally/Eventually/Lastly...            In conclusion...            I know that this happened first/ last/ in this order due to the fact that...</p> 	<p><b>Predict</b>            Due to the fact that...I know that...will happen            I predict that...            because...however...            As a result of..., this will happen because...            All events lead on to...because...            Because...and...are similar, I predict that...            The outcome will be...due to...            Based on...,I predict that...            After hearing all the evidence, I think that... will happen            I will need to test...because...</p> 	<p><b>Infer</b>            Because I know that...I know that...            Due to this...I know that...            I believe that... This is because...            I can see... so I believe that...            I can infer that... because...            I think that... is/ feels/ wants... and I think this because it says/ they said/ I can see...            The evidence to support this...‘quotations’</p> 
<p><b>Opinion</b>            I agree/disagree because...            I appreciate ...’s opinion because.. /due to...            However, I think differently because...            Most reasonable people would agree that...because...            Surely you agree that...  <i>What is your opinion on the issue of...?</i>  <i>How would you feel if ...?</i></p> 	<p><b>Compare and Contrast</b>            ...and...are both...            ...and...are alike in that...            ...and...are similar because...            ....and...have the following points in common:...            One similarity between...and...is that...            Another is... A further...A difference is...            ...are comparable due to the fact that...</p> 	<p><b>Agree and Disagree</b>            An argument for ...is... because... and...            An argument against...is...because...and...            I understand that...depending on the content but would argue...            I understand your point of view, however I disagree because...            I assert that... due to the fact that...</p> 	<p><b>Describe</b>            It looks / tastes / feels / sounds / smells like...            It appears to be...because...            It seems to be like....because...            I think it looks like...because...            It reminds me of...because...            Metaphor- It is... Personification...  <i>Why? How? What? Tell Me About...</i></p> 
<p><b>Explain</b>            How...Why...            Where...            When...            What...            After...            Then/As a result of/Later/Meanwhile/            Furthermore/Eventually/In contrast to</p> 	<p><b>Explain- Mathematics</b>            We know that...so/because...            It can't be... so/because...            So it must be...so/because...            I agree/disagree with you because...            A major difference between... and... is...            Some ways in which...and...differ are...            As a result, ...            It is always/ sometimes/ never... and I can prove this by...</p> 	<p><b>Evaluate</b>            I enjoyed...because...            ...was successful/ambitious because...            You could improve this work by...            Maybe you could try...            Next time I / you could / would...            The limitations were...            It could be made better by...            I changed...because... This can be explained by...            In general... I think... The reason for this is...</p> 	<p><b>Deduce</b>            In conclusion, I would say that...due to the fact...            My results make me think that...because...            Having analysed the data, I conclude that...            Because I know that ice melts, I know that...            Maybe it's because...</p>
